

AV PROCUREMENT

Incoming Goods prior to Quality Checking

AgriVisual can assist with the specifications and procurement of all audio visual equipment. Our many years of experience ensure selection of the most suitable equipment to meet operational and budgetary parameters.

AgriVisual is well aware that even small items like projector bulbs, connecting leads and fuses lead to downtime and frustrating interruptions to work.

The **AV PROCUREMENT** watchword is 'personal service', supported by an around-the-clock availability for immediate response.

This publication is for international use and whilst AgriVisual takes the utmost care in ensuring that the details are correct, we are constantly striving for improvement and hereby reserve the right to alter specifications and equipment in consultation with our clients.

AV PROCUREMENT is a trade product of AgriVisual
